

APPLICATION INSTRUCTIONS

STAINLESS STEEL COATING

Description

NanoTech Stainless Steel Coating is a concentrated water based one step cleaner, polisher and conditioner designed to leave a self healing durable film that repels and masks fingerprints and smudges.

Applications / Surfaces

NanoTech Stainless Steel Coating is designed for use on Stainless Steel, Aluminum and Porcelain materials to repel and mask fingerprints and smudges.

Characteristics

Appearance:	colorless to slightly milky white
Finish:	Clear
Odor:	none to mild
Base Type:	Water based
Flash Point:	N/A
VOC:	Zero g/L
Weight per Gallon:	8 lb/gallon

Coverage

600-800 sq. ft. per gallon. Coverage will vary depending on the porosity and texture of the surface.

Surface Preparation

Surface must be clean, dry, and in sound condition. Remove all oil, dust, grease, dirt, and other foreign material using NanoTech Coatings Surface Prep for Unpainted Surfaces. Rinse thoroughly with fresh water and allow surface to dry.

Application Instructions

Test Area

Always test NanoTech Stainless Steel Coating in an inconspicuous location to ensure performance and compatibility with the surface.

Application

- Make certain surface has been prepared properly and is clean and dry.
- Shake the container for several minutes to re-suspend the nanoparticles that have settled to the bottom.
- Make certain to re-shake every 15-20 minutes to ensure proper performance.
- Use a pre-moistened cloth to apply.
- Buff off with a micro fiber mop.
- Clean tools and equipment with water, rinsing thoroughly.

Drying Time

Drying Time (@ 77 F, 50% Relative Humidity):

Temperature and humidity dependent.

Touch: 3-5 minutes.

Through: 5-10 minutes.

Care & Maintenance

Reapply NanoTech Stainless Steel Coating as needed to maintain desired appearance.

Cautions

- Short term harmful effects are not expected from vapor generated at ambient temperatures. Use ventilation as required to control vapor concentrations.
- Avoid skin contact.
- Wear normal work clothing. Individuals with sensitive skin conditions should wear gloves, outer clothing or apron, overshoes and a face-shield suitable to potential exposure.
- In the event of contact with skin, wash skin thoroughly with soap and water.
- Always wear safety goggles or splash shield to avoid splashing into your eyes. Do not wear contacts without eye protection.
- If sealer gets into your eyes immediately flush eyes with water for 15 minutes. If eye irritation occurs after rinsing seek medical attention.
- If accidentally swallowed, rinse mouth thoroughly with water. In case of discomfort, obtain immediate medical attention.
